BRADLEY NAMED HONORARY MEMBER OF THE AMERICAN WATER WORKS ASSOCIATION

PORTLAND, Ore. - - The Pacific Northwest Section of the American Water Works Association (PNWS-AWWA), announced today that Dan Bradley, general manager of the Oak Lodge Water District in Milwaukie, Oregon, has been named Honorary Member of the American Water Works Association. This award was presented recently at the American Water Works Annual Conference and Exposition in San Diego. This award is given to members whose knowledge and accomplishments in the field of water supply entitle them to special recognition. This award is presented to no more than ten members annually.

Bradley has been extremely active in the Oregon Water Utility Council and has represented the water industry on numerous state and local governmental work groups and committees. He was a member for many years to Oregon's Drinking Water Advisory Board, Oregon Health Division and the Early Action Team for the Department of Environmental Quality. He has also served on several Oregon Water Resources Department rule making committees.

"Dan is one of the Pacific Northwest Section's most colorful and dynamic leaders", said Mark Knudson, PNWS past-chair. "His keen wit coupled with his extensive water industry experience makes him exceptionally qualified for this award."

###

The Pacific Northwest Section of the American Water Works Association was founded in 1927 and provides leadership to drinking water professionals in Idaho, Oregon and Washington in the areas of water quality, water treatment, distribution, water resource policy, conservation, engineering and information technology applications in the water industry.

PNWS is one of 43 sections in North America that comprise AWWA, the authoritative resource for knowledge, information and advocacy to improve the quality and supply of water in North America and beyond. AWWA is the largest organization of water professionals in the world. Through our collective strength we become better stewards of water for the greatest good of the people and the environment.
