Dennis Galinato
Cheryl Capron

Website and other activities:

- Creation of PowerPoint slides for Committee Presentation slide show
- Addition of new user accounts for Google site
- Updates to section website
- Assist Subsections and Committees in website updates
- Provide trainings at Fall and Winter meetings

Goals:

- Recruit new members into the WITC and enlist new members to become committee officers.
- Produce a high quality, full day, technical session for the 2017 Section Conference in Kennewick. The WITC is planning for a full day track at the upcoming Kennewick Conference in May. Currently we have partnered with the Conservation Committee and have twelve presenters selected to cover the required six hours for the full one-day track. Additionally, we have another three presenters towards the six needed for an extra half-day session.
- Develop sub-committees for various areas of specialties. I.e. SCADA, GIS, Metering systems. Still looking for interested individuals
- Create an email user group of section members willing to share their knowledge and are interested in water information technology topics to where they can request help or post ideas to the group.
- Implement Go to Meeting trainings.
