

Water For People
is a nonprofit,
international development organization

Our vision is a world where all people have access to safe drinking water and adequate sanitation; a world where no one suffers or dies from a water- or sanitation-related disease.

884 Million lack safe water

80% of all sickness
and disease
worldwide is water-related

6,000 people—4,500 of them,
children—die every day

Dirty water contributes to
disease like cholera

2.6 billion people

lack sanitation

90% of wastewater goes untreated—

Women & Girls

the world's water-haulers

Diminished
economic
potential

Diminished
status

*Female illiteracy
double that of males'*

Guiding Principles of Water For People

We believe in people.

We keep it local.

We keep good company.

We keep our promises.

Local Government

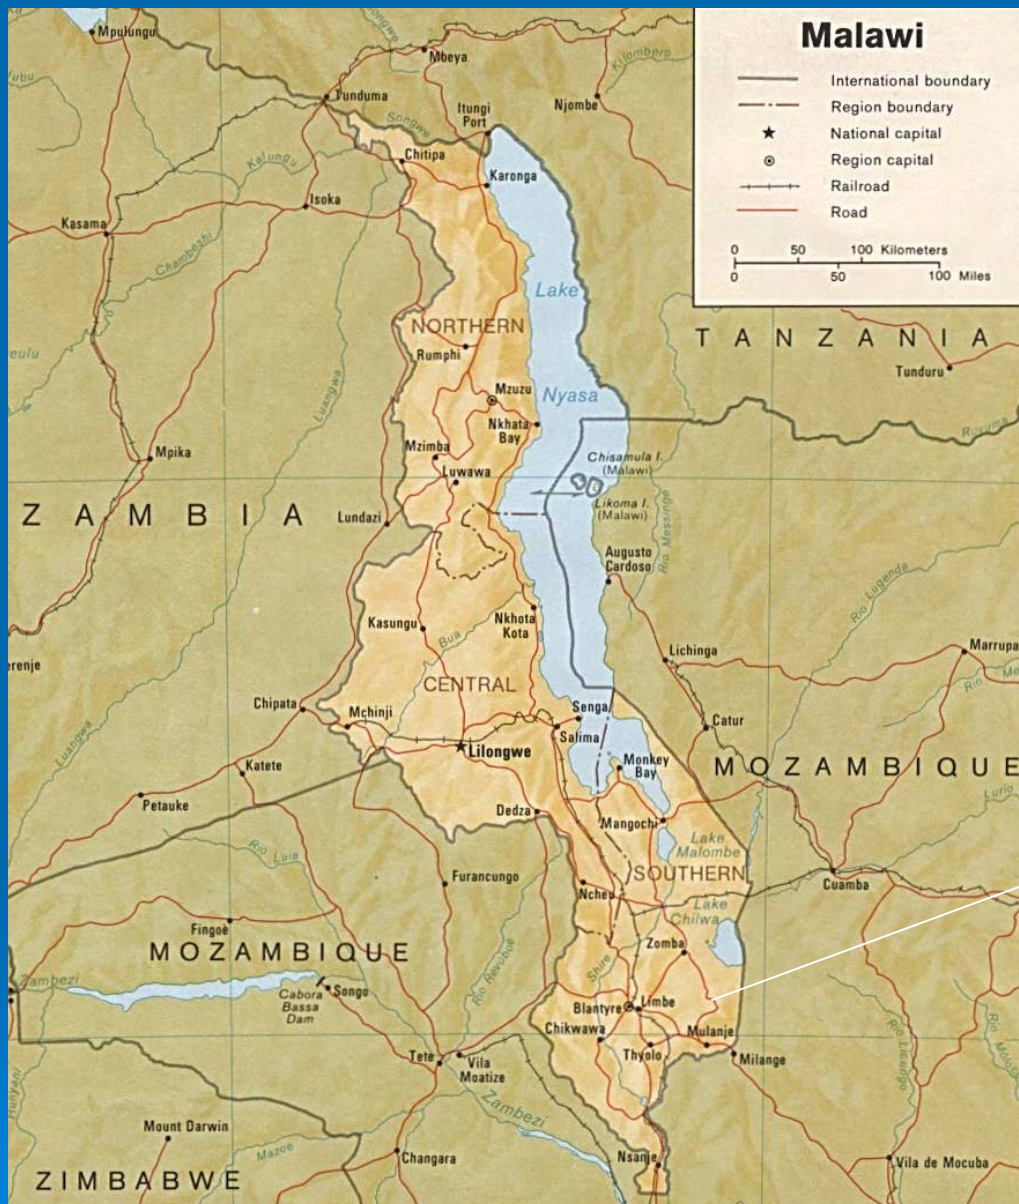

Local NGO

Local Private Sector

Sustainability

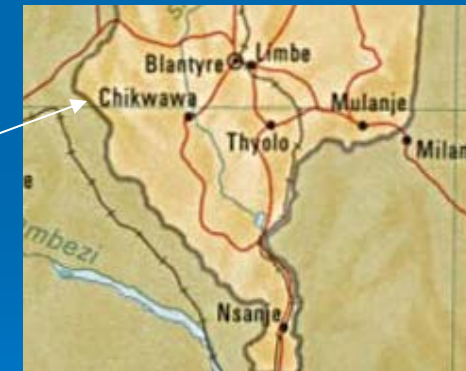

Case Study: Malawi

Strategy for sustainability:

Regional focus on
Blantyre
Chikwawa

Peri-urban Blantyre

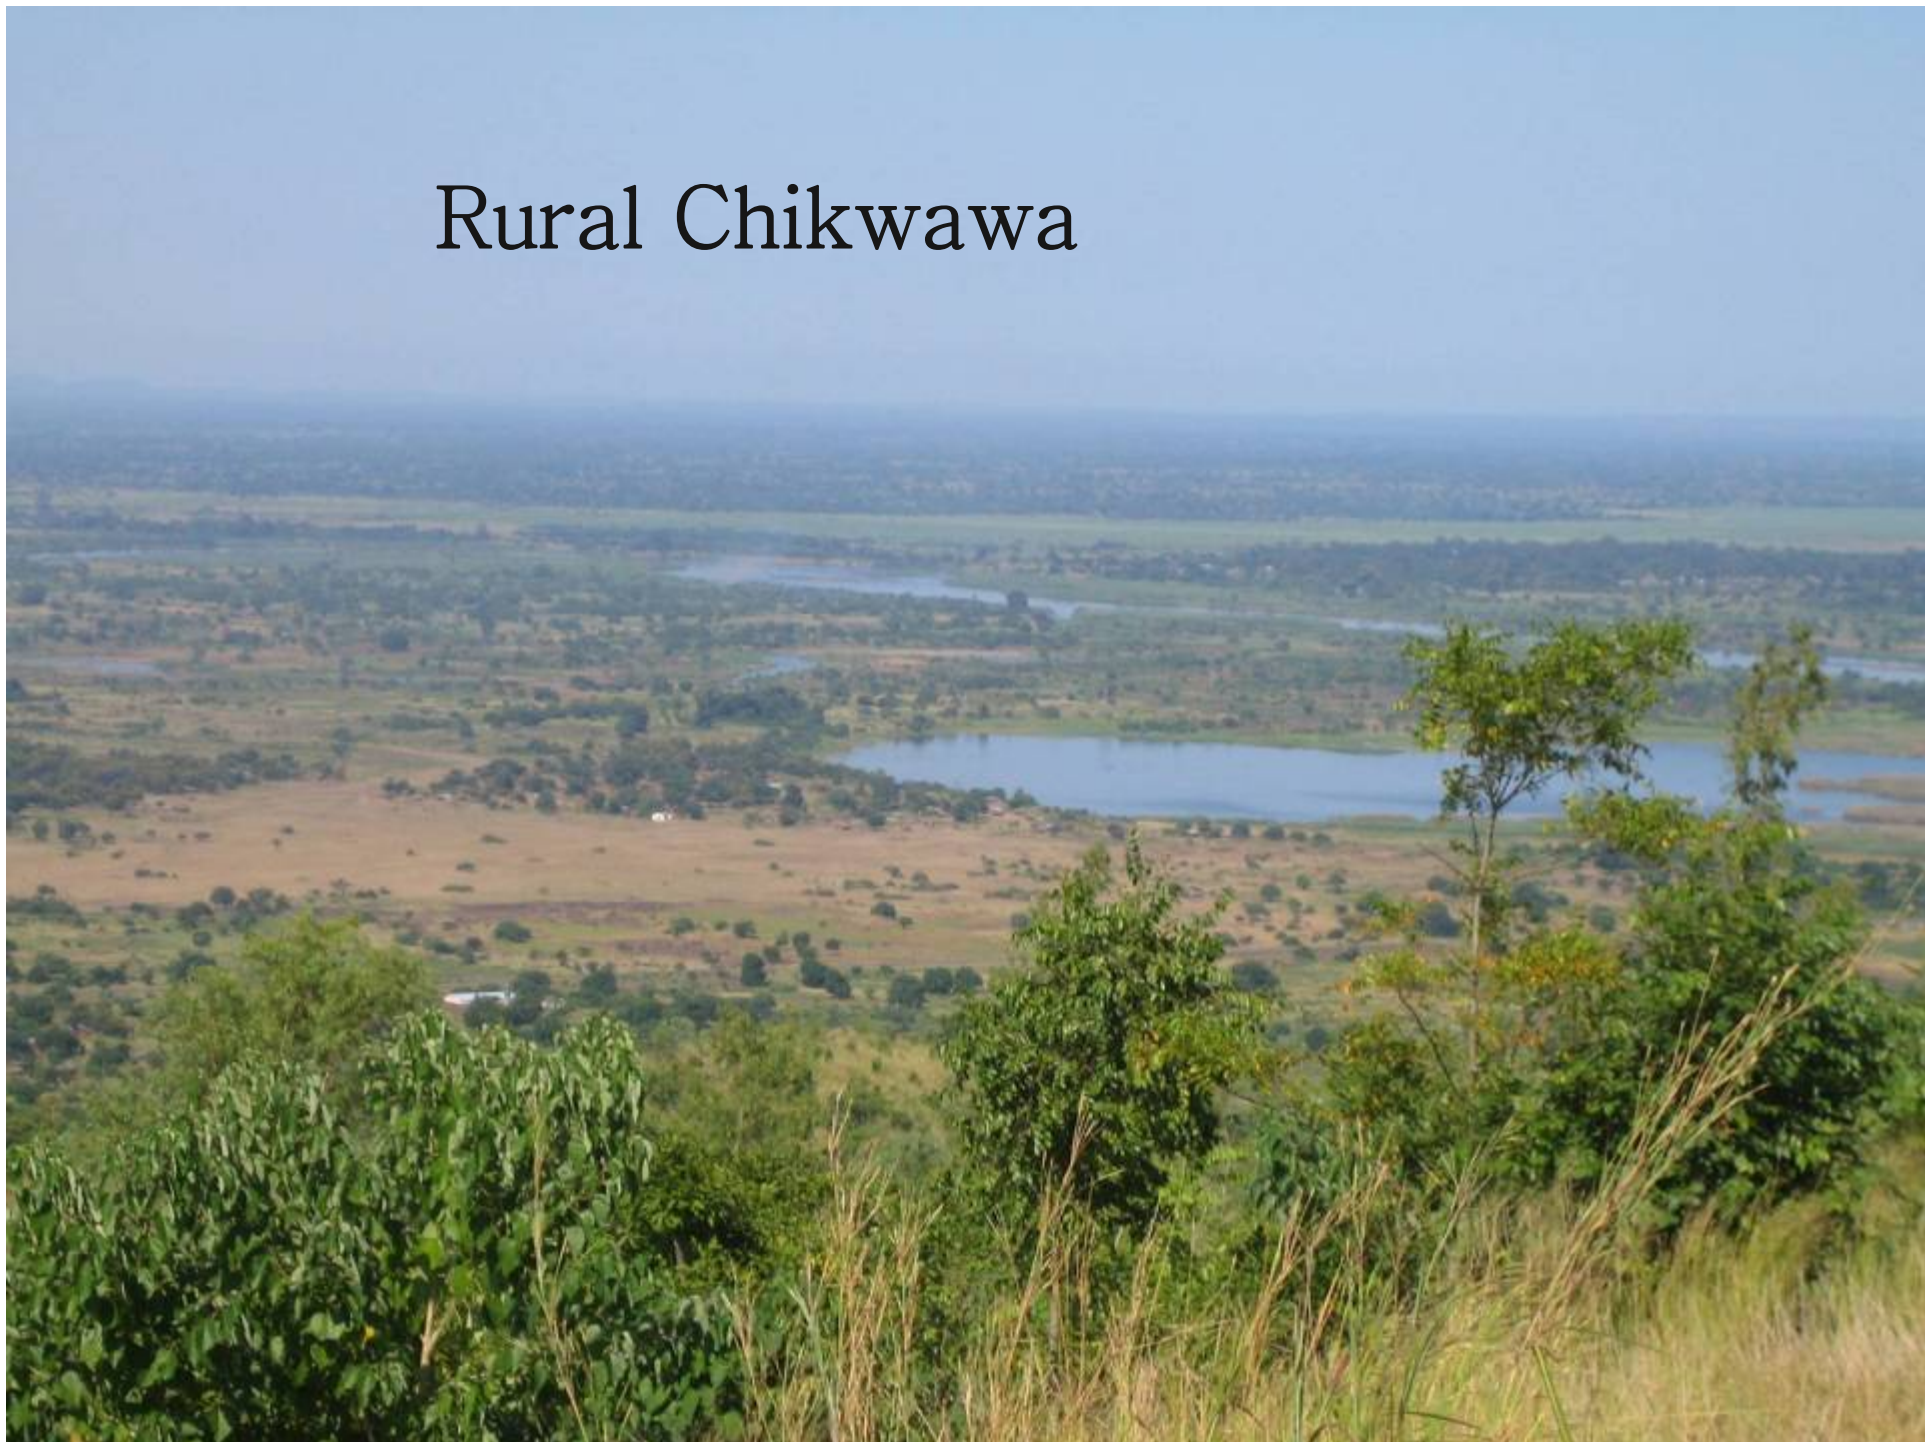

Schools-based sanitation

Water kiosks management

Rural Chikwawa

Hand-dug wells

Shallow wells projects

Sanitation problems affect twice as many people

Sanitation solutions have greater impact on health

→ Malawi Country Strategy

Eco-sanitation

Improved health

Valuable commodity – compost

Boost to economy

Growth in private sector

Traditional
Pit Latrine

Fossa
alterna

Sanitary Platform

Sky Loo

Children's Arbor Loo

Local providers

Hygiene is key!

Expertise,
Pride,
Ownership!
