Exhibitor Hal Education Sessions

This year we are piloting Exhibitor Hal Education sessions. These are 15-minute exhibitor presentations held at their booth. This program is patterned after the AWWA model used at specialty conferences. Once we see how they are received, we will consider expanding it for 2019.

Looking forward, we have our walkthrough of the Vancouver Hilton in May and will begin planning for 2019. After the walk through, we will be to develop exhibit floor plan and sponsorships package that most effectively utilizes the available space.
