Dennis Galinato  
Cheryl Capron

### Website and other activities:

- Addition of new user accounts for Google site
- Updates to section website
- Assist Subsections and Committees in website updates
- Provide trainings at Fall and Winter meetings

### Goals:

- Recruit new members into the WITC and enlist new members to become committee officers.
- Produce one and one-half days of high quality technical sessions for the 2018 Section Conference in Tacoma. The WITC is hosting a full day pre-conference track, in addition to a Thursday morning session at the upcoming Tacoma Conference in April.
- Helping the scholarship committee with transition from Dave Leland's personal Gmail account to the section's G Suite, for all documents.
- Assisting the YP committee in getting YP Summit concluded, both back end (constant contact) and front end (registration).
- Develop sub-committees for various areas of specialties. I.e. SCADA, GIS, Metering systems. Still looking for interested individuals
- Create an email user group of section members willing to share their knowledge and are interested in water information technology topics to where they can request help or post ideas to the group.
- Implement Go to Meeting trainings.
