

PNWS Trustees Report

Women in Leadership, Seattle – Ad Hoc Committee

Prepared by: Katy Isaksen, Co-Chair

April 13, 2018

The 2018 Women in Leadership Symposium was held on Wed. Feb. 7 at Tukwila Community Center

- We had 166 women in all stages of their career!
 - We planned for 150 in the budget, and had 161 last year
- Our revenue was higher than our budget estimate, and a bit higher than last year
- Our expenses were less than our budget estimate, and higher than last year
 - Two primary savings on expenses: we had a sponsor print the booklets, and the facility overbooked so we took less space and received a refund
- Attendees were a mix of first timers (less than half), and returnees from at least one previous year (more than half)
- Some agencies are cycling who is able to attend, approving a certain number and taking turns
 - Seattle Public Utilities has it on their training calendar and allows a certain number to attend each year. Following the symposium, the attendees have a brown bag lunch and pass it along the info and inspiration to others that were not able to attend this year.
- The planning committee is on break now but is planning the next symposium for Feb. 2019.
