Peter Boone; TVWD  
Michael Karl; Brown & Caldwell

### **Honorary Members**

Kyle Kihs  
Bill Carr  
Bob Ward  
Jason Canady  
Dennis Galinato  
Cheryl Capron

### Website and other activities:

- Teaming up with the Scholarship committee in getting new platform (AirTable) for scholarship application and grading. It's been great so far, with the application period still ongoing.
- Addition of new user accounts, and updates of existing users of the section's Google account.
- Updates to section website.
- Assist Subsections and Committees in website updates, particularly for trainings and events.
- Provide trainings at the Fall and Winter meetings.

### Goals:

- Establish technical tracks for the 2019 Section Conference in Vancouver. Rob Barrett is spearheading the effort to have tracks arranged with Cheryl Capron.
- Provide a few webinars throughout the year with topics relevant to streamlining work processes (e.g. how to work better in Excel). Kevin Wyckoff is taking on this task to come up with material and logistic.
- Develop sub-committees for various areas of specialties. I.e. SCADA, GIS, Metering systems. Still looking for interested individuals.
- Facilitate and implement GoToMeeting / Skype trainings to provide alternative to those who can't travel.
