AWWA and the Section

Reasons an Affiliation Agreement is needed:

- Protect the Associations' intellectual property including logos, emblems, names, free publications and other proprietary material. In this litigious society if you don't protect your brands you can lose them. An example, Bayer aspirin did not protect the name aspirin and it is now used worldwide by many companies.
- By having this agreement the Association can continue to indemnify all eligible persons of the section, such as directors and officers with liability insurance as cost effectively as possible.
- The Associations' not-for-profit status is critical to our organization surviving. As such the need was there to ensure that everyone understood that all activities conducted by the Sections must meet with AWWA's stated mission of uniting the water community to protect public health and to provide safe and sufficient water for all. Through collective leadership, AWWA advances technology, education, science, management, and government policies. Anything outside of this mission is not allowed.

Section Penalties for Affiliation Agreement Violations:

1. If the Section violates this agreement to Association may start a disciplinary proceeding that could include financial penalties or ultimately dissolution of the Section.

I understand the importance of the American Water Works Associations' Affiliation Agreement and why it was needed. Furthermore, I understand that by violating this agreement I place the Pacific Northwest Section in jeopardy of financial penalties or possible dissolution. If I have any questions or concerns regarding my Committee or Subsection activities I will contact the Section office for clarification.

PNWS-AWWA ANNUAL SUBSECTION ALLOTMENT

Date:

To: Kyle Kihs
Executive Director PNWS-AWWA
P.O. Box 872467
Vancouver, WA 98687
Office: 503-760-6460
Fax: 360-254-0695
E-Mail: kkihs@pnws-awwa.org

Subsection:

The Subsection has evaluated the options available to us and made the following selection regarding the annual allotment.

From Brian Wilson's correspondence on Subsection Updates for 2020 - We were under the impression that allotments are no longer being passed down to subsections.

- ☐ Yes, the Subsection requests the allotment.
- ☐ No, the Subsection does not wish to collect the allotment.

allotment request is still marked as one of the reqs requires for year end, so we'll include it, but not mark it.

IESS-AWWA SMART WATER TECHNOLOGY
Presented by Bob Cunningham, IESS Director 3,
with Justin Ward, Instructor from

Mueller Co.

Focusing on Automated Meter Reading, this class provides information on how these systems have improved over the years, the options available, and the value that this type of monitoring brings to your system. The class will examine considerations for varying utility size, and highlight the functionality available with current meter reading options.

Some specific items addressed will include interfacing and software options, leak detection, automated flushing and pipeline condition assessment.

This is our last class offered by IESS until next Fall.

Lunch is provided. Washington Water .06 CEU's approved.

\$90 for AWWA members, \$115 for non members.

IESS - AWWA Chlorine Residual Testing & Labs Skills for Water Operators

Steve Deem and Nancy Feagin with the Washington Department of Health are instructing a training class on chlorine measurement and basic lab skills and techniques specifically designed for Water Operators.

Attendees should bring their own chlorine test kits and supplies, including extra batteries for your instrument. This is a hands on class. Participants should also bring secondary standards if available.

0.3 Washington CEU's.

Class starts promptly at 8:30, with check in and coffee at 8am.

Hosted by IESS President, Michelle Johnson. Questions? Contact her at mjohnson@jub.com.
