

# Discovering Equity Insights in Water Data

CHRISTINE E BOYLE, PHD  
VP, DECISION INTELLIGENCE  
XYLEM INC

# Why does the water sector need equity insights?

- water scarcity
- extreme weather and flooding
- acute water quality events
- Historical imbalances in capital allocation
- capacity and revenues

**“While these water-related challenges affect all communities, those that are already overburdened with economic, environmental, and health challenges are especially vulnerable.”**

US Water Alliance, *An Equitable Water Future*

# Why is Water Equity important to PNW?

## Distribution of LIHWAP funds

*How do you track affordability & equitably distribute funds?*

## EPA's Water Equity Plan

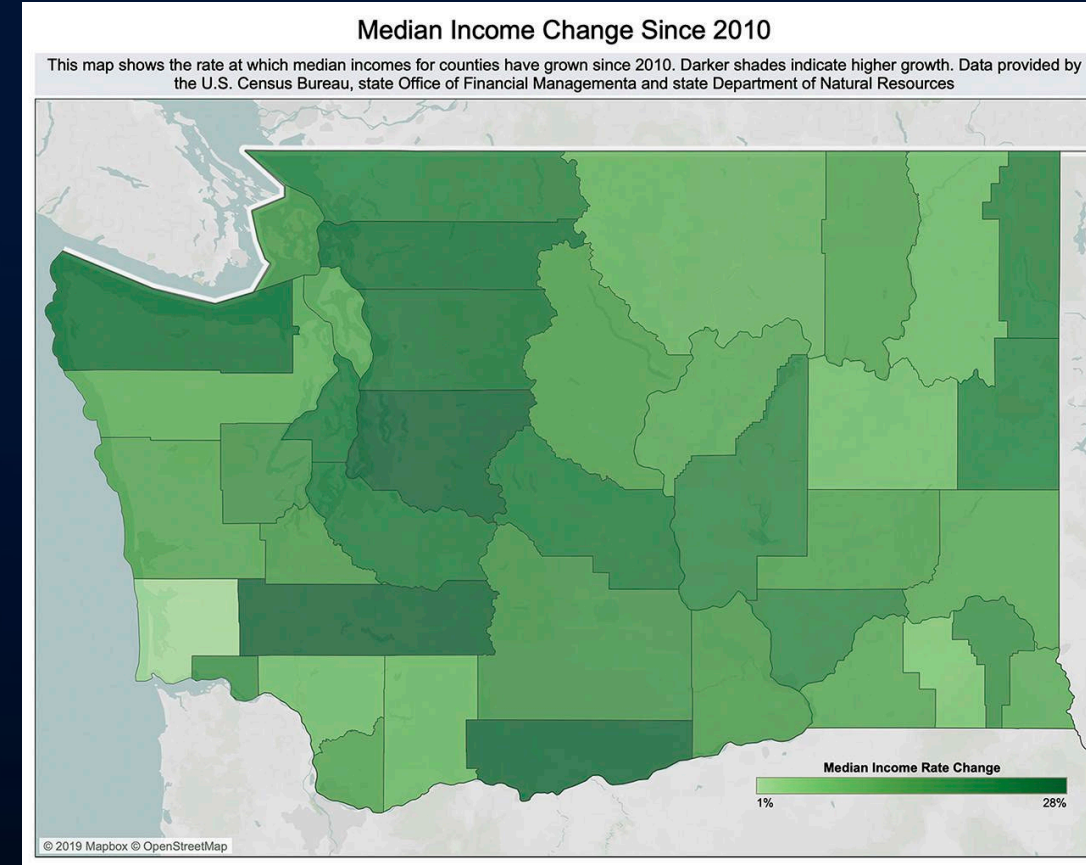

*Emerging water equity framework expected from EPA in 2022.*

## Bipartisan Infrastructure Law

*Can you access State Revolving Fund funding for disadvantaged and environmental justice communities?*

## USWA An Equitable Water Future

*Are you setting and measuring progress towards organizational equity goals?*

# Where is your organization on the water equity journey?

Mentimeter

# Xylem Water Equity Lens Solution Hypothesis

Indicators make water equity measurable, so that water and wastewater utilities can:

**learn**

**decide**

**check**

**share**

## *Theory of Change:*

Water Equity Lens enables a utility to incorporate equity-based performance indicators into their operational and decision-making processes, so that all people in the community have access to dignified water and wastewater services, are resilient in facing water risk, and can benefit from the value of water and wastewater services.

# Water Equity Framework

| Pillar     | Description   | Focus  |
|------------|---|--|
| Access     | Ensure all people have access to clean, safe, affordable water service          | <ul style="list-style-type: none"><li>• Affordability</li><li>• Water Quality</li><li>• Access to Infrastructure</li></ul>             |
| Benefit    | Maximize the community and economic benefits of water infrastructure investment | <ul style="list-style-type: none"><li>• Workforce</li><li>• Small business contracts</li><li>• Community revitalization</li></ul>      |
| Resilience | Foster community resilience in the face of a changing climate                   | <ul style="list-style-type: none"><li>• Planning &amp; Assessment</li><li>• Funding</li><li>• Prioritized community projects</li></ul> |

# Xylem Water Equity Lens Solution Hypothesis

## Access

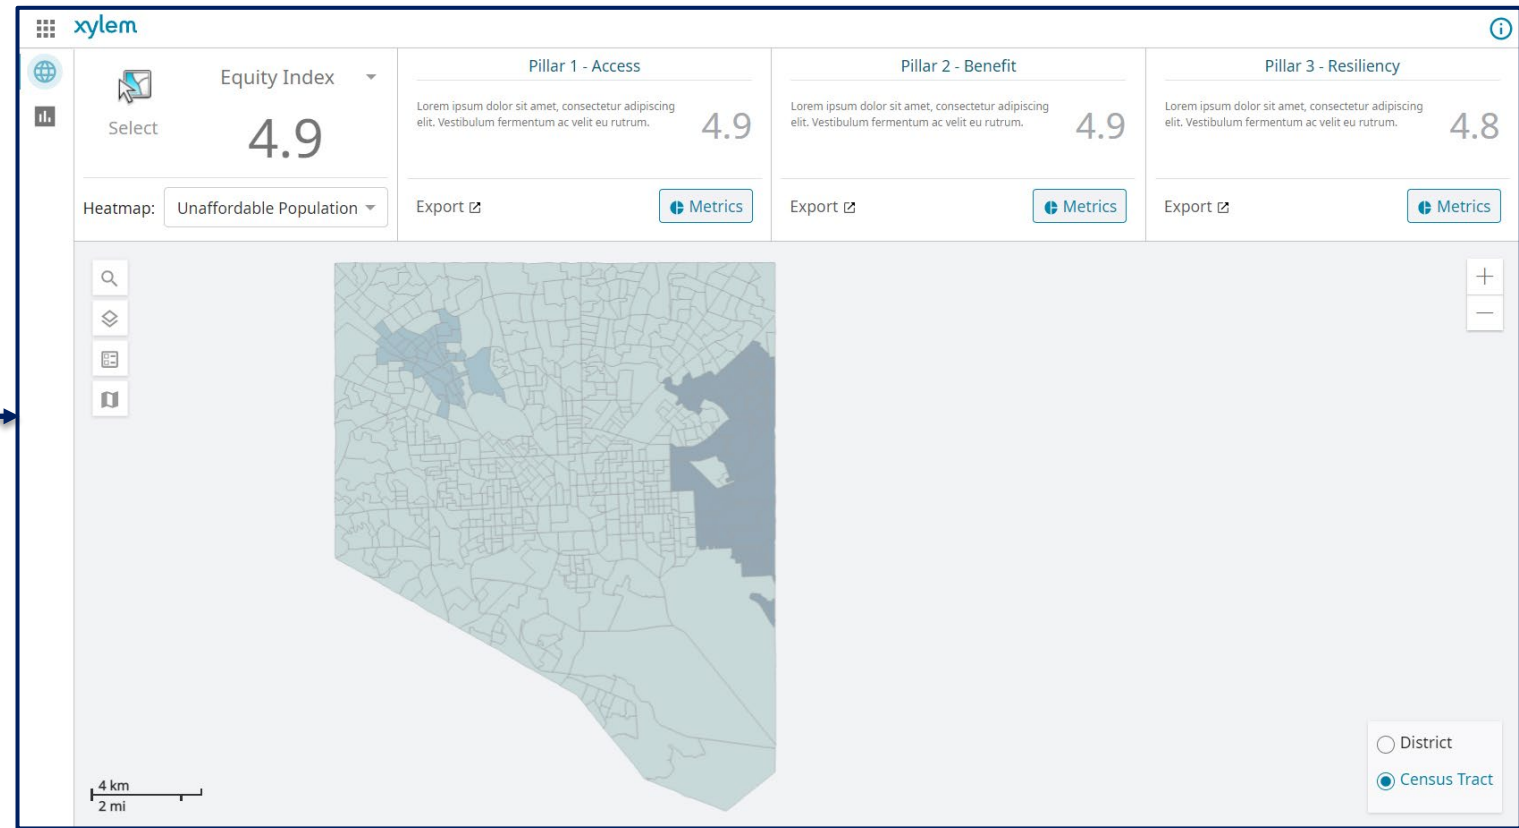

- Household Burden
- Affordability
- Cutoffs
- Customer Assistance Program Participation
- Taste & Odor Complaints

## Benefit

- Workforce and Board Diversity
- Waterfront Access
- Procurement Diversity
- Training & Education Events
- Outreach Events & Community Meetings

## Resilience

- Main Breaks & Leaks and Sewer Events
- Lead Service Lines
- Proactive Maintenance Ratio
- Flooding Events

# Water Equity Lens Beta Program

## ***How might we standardize assessment of water equity for the development of KPIs?***

Form a Water Equity Community of Practice

Buffalo Sewer Authority

City of Sandusky Department of Public Works

City of Baltimore Department of Public Works

## ***How might we turn water data into equity insights that empower decision-making?***

Conduct User Experience design reviews

focus and prioritization

## ***How might we enable equity-informed planning for action and impact?***

Deploy Water Equity Lens Beta

# Water Equity Lens Observations

## What works well

### *User Experience*

- Few clicks provides breadth and depth for comprehensive learning about water equity baseline
- Analytical insights are key for prioritization and decision-making
- Mapping is visually effective internal communication tool

## What doesn't work well

### *User Journey*

- Water equity indicators require data input, ideally spanning several years. This can be a challenge for small utilities who do not have electronic data sets
  - Opportunity for Technical Assistance partnerships?
- “Another GIS platform”
  - Integration strategies – GIS export, ArcGIS Online/Pro data ingestion, Water Equity Lens as ArcGIS add-in

Go to [www.menti.com](https://www.menti.com) and use the code 7717 6449

## How do you think your organization could use Water Equity Lens?

 Mentimeter

# Water Equity Charge

How to get started on your water equity journey:

- Build water equity into your organization's mission and measure your baseline
- Identify upcoming projects or investments that could be prioritized through combination of asset and social need
- Seek funding with equity or environmental justice requirements
- Join Xylem's Water Equity Lens Beta program to generate your baseline, project, and funding data
